OVERVIEW

The Afro-Asian-American Chamber of Commerce, Occupational Research and Development (ACCORD) has been established on the auspicious occasion of the United Nations Day coinciding with the World Development Information Day on 24th October 2015. ACCORD has been registered as a Charity under the Central Act II of 1882, Government of India on 23rd October 2015 at New Delhi vide registration number 1390.

ACCORD has been established with the main objective of locating avenues for alternative employment creation besides designing a neological as well as neocratic approach to skill development and entrepreneurship among the younger generation all over the world in general and in the countries situated in African, Asian and American continents in particular with a view to bringing peace on earth in the third millennium by having countrywise and countrywide appropriate solutions for the burning problems like peacelessness, insurgency, poverty, greed, unemployment, pollution, faulty educational and training methodologies, population explosion, religious intolerance, etc. The Afro-Asian-American Chamber of Commerce, Occupational Research and Development (ACCORD) has decided to design a masterplan paradigm (2015-2025) for a new world order and system. The ACCORD has been a part of the World Institution Building Programme (WIBP) for the last 15 years but now it has become an autonomous and independent organization.

The activities of ACCORD will include involving new strategies for access to new occupations besides transfer of appropriate technologies among the 54 countries in Africa, 49 countries in Asia and 39 countries in the American continents. This will be facilitated by promoting closer ties with all countries in Europe as well as

Australia and the Pacific Region for ensuring a balanced and a sustainable growth in all countries of the world. This will be enabled by fostering the use of clean as well as cleaning-up technologies through new and emerging techniques for climate change management, environmental and disaster education, geriatric care, waste management, green business and technologies. The strengthening of diplomatic relations among nations for protecting our Mother Earth shall remain the main focus of all over endeavours.

The idea is also to promote entrepreneurial leadership among the school and the college going boys and girls by “Catching Them Young” and for designing appropriate messages for the educators to see that they produce a greater number of job givers rather than job seekers. This will be possible as ACCORD has the qualified inventory of experts for establishing universities, colleges, institutions, schools and other training enterprises in different countries with the latest equipment and infrastructure for conducting formal, informal, nonformal, open, distance, online, internet and web-based employment-centric programmes in all countries of the world.

20 December 2014 : The Book titled "Narendra Modi : The Man India Needs" authored by Dr. P R Trivedi being presented to the Governor of Gujarat Shri Om Prakash Kohli

AIMS & GOALS : THE OBJECTIVES FOR WHICH ACCORD HAS BEEN FORMED ARE:

1. To help provide necessary support in the areas of the emerging and the appropriate technologies for their transfer among all the Afro-Asian-American countries with a view to having mutual as well as technical cooperation.
2. To collect data related to the existing business occupations and the proposed business opportunities in the third millennium in all countries of the world in general and in the Afro-Asian-American countries in particular.
3. To help the countries in diagnosing the societal weaknesses and needs and requirements in order to define the basic level of learning to meet the needs of its own population in different countries under the United Nations.
4. To make special plans for the studies and research in the areas of business development, rural and urban entrepreneurship, occupational research and empowerment by promoting ideas, plans and practices having social, technological, cultural, scientific, environmental, economic and positive contents for the optimum development of a global sustainable society.
5. To aid in organising conferences, congresses, conventions, summits, symposia, seminars, meetings, discussions, debates, study courses, collection of statistics, exhibitions, shows, tour trips and to establish endowments and scholarships for the promotion and furtherance of the aims and objectives of ACCORD.
6. To organise and establish educational / business / technical / archaeological museums and parks in different countries of the world for enabling the business houses, entrepreneurs, institution builders, governments, international bodies, educational institutions, etc. to use these facilities and infrastructure as training-cum-production-cum-rehabilitation centres.
7. To conduct sponsored as well as non-sponsored research programmes with the support of Ministries, Departments, Divisions, Inter-Governmental/

National / Transnational Bodies and International Organisations for coming out with appropriate findings for mitigating the disastrous effects of peacelessness, unemployment, poverty, pollution and population explosion.

8. To publish books, encyclopaedias and directories on different topics relating to international cooperation, diplomacy, education, health, science and technology, environmental and disaster education, sustainable development, peace studies, cleaning and greening, river, ocean and mountain development, glacier studies, employment generation, etc.
9. To establish institutions at primary, secondary and tertiary levels with the active cooperation and involvement of the federal and / or local governments and public / private sector organisations in different countries for teaching, training and research in different emerging fields and to award degrees, diplomas and certificates to that effect.
10. To organise different academic / vocational programmes in association with the universities and institutions in different countries by establishing countrywide and countrywise branches, centres and enterprises with a view to preparing a competent cadre of young boys and girls having expert knowledge of new and emerging specialisations for entering into new occupations and in order to save the fragile and endangered Mother Earth.
11. To institute a Chair(s) in the universities / colleges / institutions / schools and other teaching bodies to make appointments to teachership,

29 November 2014 : Release Function for the Book "Bihar : Past, Present and Future" in the presence of HRD Minister of Bihar Shri Brishen Patel, Industries Minister of Bihar Dr. Bhim Singh and other Members of the Editorial Board including Dr. P R Trivedi, Shri Vishwa Mohan Sharma, Dr. U K Singh, Shri Utkarsh Sharma and Shri Kaustubh Sourabh.

professorship and fellowship in different countries by having the sponsorship / co-sponsorship from the leading industrial and business houses and international organisations.

12. To collaborate, affiliate, federate and cooperate with the federal / central / state / provincial / local governments, universities, public / private sector organisations, NGOs and international agencies for implementing the projects of developmental nature all over the world.
13. To design and implement action programmes in areas like health and family welfare, drugless therapies, educational planning and administration, science and technology, rural and urban development, water resources, river, ocean and mountain development, earth sciences, human rights, intellectual property rights, tourism, hospitality, transportation, etc., with the academic, financial, technical and moral support from the governments, funding bodies, industrial houses, inter-governmental organisations, United Nations, etc.
14. To open collaborative branches, chapters and constituent centres in different parts of the world and get them registered with appropriate agencies and authorities if needed and felt necessary for the attainment of the aims and objectives of ACCORD.
15. To strengthen the voluntary as well as non-governmental organisations in order to make them discharge the responsibility for the implementation of the need-based programmes with a view to protecting the Mother Earth by specially providing training in the areas of attitudinal as well as behavioural change and by educating the world citizenry regarding their rights and duties.
